These new itineraries feature such sights as Gaudi's cathedral and of course, the Eiffel Tower. Several new tours will be released throughout the remainder of this business week.

Travel enthusiast Mark Story founded QueensLander Worldwide Tours in 1998. Mark traveled to Queensland, Australia as a college student where he "fell in love with travel" and that brought about the service-driven tour agency known as QueensLander. Arthur Frommer described QueensLander's small group tours in Italy as, "...the perfect way..." to tour.
