Throughout this week, QueensLander Worldwide Tours has released six new itineraries. The new tours include the *Switzerland Austria Tour*, the *Germany Czech Republic Tour*, the *African Grand Safari*, *Italy's Small Towns Tour*, *Spain's Great Cities Tour*, and the *Treasures of France Tour*. Today QueensLander will conclude the week with the release of the *Grand Ireland Tour* and the *Wonders of South America*. The *Grand Ireland Tour* features a stop at the Cliffs of Moher.

To celebrate the new itineraries, guests can save \$300.00 per couple when they book with the company's very popular *Pay-in-Full Promotion* by July 3, 2014 on any of the new tour itineraries.

QueensLander is pleased to continue their unmatched service that features the company's hallmarks of unique dinner experiences at *Off-the-Beaten-Path* restaurants, exclusive *Skip-the-Line* access at venues and sights, *Heart of City* hotel properties throughout the cities and towns on the itineraries, and *True Small Group Tours* of sixteen travelers or less. Travel enthusiast Mark Story founded QueensLander Worldwide Tours in 1998. Mark traveled to Queensland, Australia as a college student where he "fell in love with travel" and that brought about the service-driven tour agency known as QueensLander. Arthur Frommer described QueensLander's small group tours in Italy as, "...the perfect way..." to tour.
