

Italy Tours Are Our Specialty

"Italy's Great Cities" remains our flagship tour

June 12, 2014
Denver, CO

With the addition of five new tours in 2015, QueensLander Worldwide Tours continues to expand its arsenal of luxury tours and travel options. QueensLander now offers over twenty-five different tours on four continents.

Mark Story founded QueensLander in 1998. Following a college trip to Queensland, Australia; Mark fell in love with travel and service. Despite the name QueensLander, the flagship tour of the company is the "Italy's Great Cities Tour."

Italy tours and travel seems to grow in popularity with each passing year. If you were to search "most popular European country to visit" in Google, chances are the majority of the lists will have Italy at the top.

Mark Story designed the "Italy's Great Cities Tour" which broke the mold of the traditional group tour of Italy. QueensLander Worldwide Tours feature true small group of sixteen travelers or less, off the beaten path restaurants, exclusive access at major sights, and hotels in the hearts of the cities. Nowhere is this more evident than on the "Italy's Great Cities Tour." While all of our tours are wonderful and unique in each of their own ways, the "Italy's Great Cities Tour" remains our most popular.
